~~~~~

The Rise of Atlantis is the uprooting of an Ancient Civilization carrying great wealth of knowledge and wisdom. *During this Guided Meditation*, the Dolphins of Atlantis will help you raise the vibrational frequency of your embodiment. A great part of our “time-line” is of the Atlantian energy, we carry certain memory, and ancient data that can configure healings and awakenings in us. As we are joined in Oneness through this “soul group”, the “pod of energy dolphins” will spiral a vortex of light resonating a greater response to one’s self being AND the Universe. Atlantian Energies carry ancient technology that once forgotten, can now be revealed, and the humans healed. Please join us, and help unlock the past and be in the Present of our Now.
